Choco Lava Cake!!! The name itself causes an outbreak of flowing chocolate in our head. It is soft and crispy, filled with delicious melted chocolate on the inside. It is one of the few desserts available from Domino's. If you have tasted Oreos biscuits, then you will understand the taste of lava cake as we write. These cakes taste like a baked cookie with creamy, thick and malignant chocolate filled in the middle. Both adults and children enjoy this dish with great joy and longing for one. It is also a treat for people with a sweet tooth. Domino's!!! As soon as you read or hear this word... Pizza is starting to rain in our heads. Kitschy, juicy, thin crust, cheese burst, toppings, jalapeno... When we eat or even see just a pizza, our taste buds go to a high and we start in the taste country :) to float. Pizza has become a family favourite in India. They currently have 1,000 franchises in India, covering more than 261 cities in collaboration with Indian partner Jubilant Life Sciences, based in Noida Uttar Pradesh. It's a multinational pizza making company. The foundation stone was laid by Tom Monaghan and his brother James in the United States of America. In 1960, they bought a small pizza shop called Dominick's in Ypsilanti, Michigan, near Eastern Michigan University. In their first days, Tom and James used a folk wagon beetle for their pizza deliveries. Until then, they had 3 pizza stores in operation. Originally Tom wanted to use the name Dominick as a brand for all three stores. But the original owner of the brand refused to allow the same. One day, an employee suggested the name dominoes and Tom liked to immediately rename the 3 stores the same. In 1965, Tom registered the name for her pizza business Dominos Logo had 3 points at the start, which represented the three stores in 1965. Tom had the idea to add a new point every time a new store opened, but given the success rate and expansion, this never really happened and the logo remained as it is. The first franchise store opened in 1967 and reached 200 stores by 1978. This is an astonishing expansion rate within 18 years of the launch of the first store. They follow a master franchise policy. This means that for each country there is only one company that is entitled to open stores across the country. However, 3 Master partners have obtained a multinational licence to open branches in other countries as well. Jubilant Foodworks also belongs to the same category. Domino's is operated in India in collaboration with Jubilant Foodworks. Jubilant holds the master franchise for India, Bangladesh, Nepal and Sri Lanka. Surprisingly, India is the largest international market outside the US. Jubilant Foodworks has 1039 pizza restaurants in 240 cities on May 28, 2016. Jubilant Foodworks opened its first store in New Delhi in 1996. The was founded in 1995 and started operations in 1996. Internet operations began in 2011 with the acceptance of online pizza orders. Online orders account for approximately 18-20% of total sales as of December 2013. Offers : Domino's is full of taste, offers, offers and fun time. Time. Slogan is Ye hai Rishton Ka time.
